

# Delta Modules

The Cambridge English Delta (*Diploma in Teaching English Language to Speakers of Other Languages*) is currently offered to practising teachers of English as a Foreign Language.

The Delta is made up of three modules one of which includes practical teaching practice.

Module 1 – Understanding language, methodology and resources for teaching;

Module 2 – Developing Professional Practice;

Module 3 – Extending Practice and ELT Specialism.

A candidate successfully completing all three modules achieves the *Delta* qualification.

Bilkent University English Preparatory Program has been running the Delta courses since 1992 (it was previously known as DOTE and DTEFLA) and prides itself on a high success rate. Many of the 200+ graduates from the program are now in leadership positions in English Preparatory Program and other educational institutions (both local and international), and so passing on the torch to others.
